

"Clean" Version of Amended Claims

1. A dummy plug for use with an associated wiring harness, the wiring harness having a connector body, two connector cavities, a flange for securing the dummy plug in place, the flange having a top surface and a bottom surface, a latch beam, two latch arms, a first length, a spacer, and a perimeter seal, the perimeter seal having two latch arm openings for receiving the latch arms, the dummy plug comprising:

18 durometer inherently lubricating silicon;

a head;

multiple ribs, the multiple ribs having a first width;

a stem, the stem having a second width, the second width being less than the first width;

a female end, the female end having a third width, the third width being less than the first width and greater than the second width, the female end having a base, the base being held in place by the associated bottom surface; and,

a second length, the second length being substantially the same as the associated first length, such that the female end is substantially flush with the associated latch arm.

9.

The dummy plug of claim 8, wherein the silicon is 18 durometer.
